Professional Summary

A motivated Frontend Developer with hands-on experience in building responsive web applications and solving complex deployment challenges. Proven ability to implement interactive features, handle form submissions, and deploy projects using modern tools. Strong problem-solver with attention to detail and commitment to continuous learning.

💼 Experience

Frontend Developer & Portfolio Specialist
Freelance | Personal Projects   2024 - Present

- Developed and deployed a fully responsive portfolio website using HTML, CSS, and JavaScript
- Implemented complex form handling with Netlify Forms and FormSubmit integration
- Created interactive UI components with custom JavaScript animations and popup notifications
- Optimized website performance and deployed via GitHub with continuous deployment on Netlify
- Solved deployment challenges including CORS issues, rate limits, and form validation

Web Development Learner & Builder
Self-Directed Learning Journey   2023 - 2024

‣ Mastered HTML5 semantic markup and modern CSS including Flexbox and Grid layouts

‣ Developed proficiency in JavaScript for DOM manipulation and form handling

‣ Gained expertise in Git version control and GitHub repository management

‣ Learned responsive web design principles and mobile-first development approach

‣ Built multiple web projects with focus on user experience and clean code

🎓 Education & Learning

Frontend Web Development   2023 - Present
Practical Project-Based Learning

Hands-on learning through building real-world projects. Focused on mastering modern web technologies by solving actual development challenges and implementing production-ready solutions.

Continuous Technical Education   Ongoing
Online Documentation & Developer Resources

Regular study of MDN Web Docs, Stack Overflow solutions, and technical documentation. Staying updated with web standards and best practices through developer communities.

🛠️ Technical Skills

Frontend Development

HTML5   CSS3   JavaScript   Responsive Design   DOM Manipulation

UI/UX Principles

Tools & Deployment

Git & GitHub   Netlify   VS Code   Chrome DevTools   FormSubmit

Google Forms API

Core Abilities

Problem Solving   **Debugging**   **Attention to Detail**   **Self-Motivation**   **Fast Learning**

Technical Research   **Project Persistence**

🚀 Key Project

E.Iganago Portfolio Website   2024

Full-stack Frontend Project

‣ **Technologies:** HTML5, CSS3, JavaScript, Netlify, GitHub, FormSubmit
